EXPERIENCE

DECIMAL TECHNOLOGIES | SOFTWARE DEVELOPER

Dec 2021 – Present | Gurugram

- The business objective is to get started with simply choose the type of account that best fits your needs, fill out the application form, and provide the necessary documentation with fraud prevention.
- Collaborated with a team of developers in designing and implementing new software features, while also managing comprehensive documentation on platforms like GitLab and JIRA, reducing onboarding time by 15%.
- Leveraged the MVC design pattern to enhance bottleneck processes and focused on creating user-centric business solutions 75%.
- Revamped web interfaces to drive a 40% increase in user engagement and a 30% improvement in data collection efficiency. Employed MVC pattern for optimized data processing, ensuring 99.9% uptime and timely updates.
- Led training and mentoring for junior developers, slashing project turnaround time by 20% and effectively managing up to five simultaneous projects, enhancing team productivity and project delivery.

REVSPiRE | INTERN

Dec 2023 – March 2024 | Bangalore

- Engineered and managed dashboard applications, streamlining tracking and management of customer interactions, sales data, leads, contacts, opportunities, and cases.
- Leveraged advanced backend development skills in Express.js and Node.js, coupled with frontend technologies including React and Tailwind, to architect and implement a robust, scalable, and user-friendly platform.
- Participated on the Web Development Taskforce to provide ReactJS sites to internal customers.

PROJECTS

SHOPPER - ECOMMERCE APP | Live

- Built a dynamic interface with **React JS** for product displays, cart management, and user authentication.
- Developed a powerful server with **Express JS** and **Node JS**, using **MongoDB** for data management. Created **RESTful APIs** for seamless **CRUD** operations and user login.
- Designed a robust admin panel, enabling product addition, updates, and comprehensive inventory management.
- Live: **Admin Panel | Shopper Repo**

NETFLIX CLONE | Live

- Developed a Netflix clone web application using **React JS**, **HTML5**, **CSS3**, and **JavaScript**.
- Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes.
